## Meet STORM™ DRONE X360

The First Affordable Premium Drone Disrupting A Billion-Dollar Industry

Unlike many other drones that are either super expensive or lack in quality, the Storm Drone X360 is the first truly affordable, high-end drone that drone enthusiasts everywhere are talking about. Its modern design combines the very best of high-end drones with the convenient affordability of beginner drones.

**"The best drone for the money."**

*"No other drone matches the price and quality of The Storm X360.... The sleek design of this drone beautifully merges high-end features, such as crystal clear HD video, stability in flight, durable construction, portability and many other features with the affordable cost of a cheap beginner drone."*

**PAUL ARCHER**

# STORM™ DRONE X360 Features

Precision Military Grade Engineering Combined With Intuitive Controls

## Foldable & Portable

The propellers are designed to be foldable to make carrying and handling easier when you're in transit.

## Stabilizing Sensor

Built-in sensors help detect the ground and other obstacles to avoid any unwanted collisions.

## HD Photos & Video

Record photos and video in high definition without any shakiness or blurs thanks to built-in stability sensors.

## Replay In Slow Motion

Capture your flight's highlights in slow motion for great, shareable videos online.

# See Why Everyone Wants A STORM™ DRONE X360

Enhance Your Drone Experience Without Any Flight Experience

With STORM™ DRONE X360, you no longer need to choose between quality and cost, making it one of the first drones that satisfies the expectations an advanced drone enthusiast and a beginner.

**Its lightweight, military grade design gives it a longer battery life and flight time.**

## SOAR THE SKIES AT 30 MPH

STORM™ DRONE X360 can reach speeds of up to 30 mph, making it one of the fastest drones of its size.

## EASY CONTROLS

STORM™ DRONE X360's intuitive controls is perfect for both beginners and professionals. If you can use a video game controller, you can fly a STORM DRONE X360.

## PRO HD CAMERA

STORM™ DRONE X360 comes with a powerful HD Camera and built-in stability instruments, so you can take amazing shots like the pros do, including "boomerang" and "asteroid" style videos.

# Loved By Drone Professionals And Enthusiasts Everywhere

STORM DRONE X360 Is Recommended By Top Drone Experts and Publications

TRAINING PROS

"Don't be fooled by this drone's compact size: the power it houses is comparable to most devices twice or three times in the same size. It's precision engineering makes it both lightweight and impressively robust. The box comes with spare propellers just in case, but we're not sure that you'll ever need them!"

**PILOT**  
Ground School

"We're always looking for the best way to document our amazing travels so that we can share them with our customers and followers. We've experimented with drones in the past, but until now we've found them over-complicated, under-powered and too fragile to pack. The STORM™ DRONE X360 has completely changed the way we record our trips and we are now making professional-quality videos in half the time!"

"The quality of this drone is staggering compared to the price you pay. This marks a turning point in drones. It is clear from the STORM™ DRONE X360 that you can now purchase a top-of-the-range drone for a fraction of the cost of some of the leading models. This technology is now accessible to everyone, and we couldn't be more excited!"
